Errata to licentiate thesis “Stem Cell Transplantation in Dorsal Root Injury”, Carl Trolle, 2014:

1) Reference and attribution missing for figure 1.2, page 3. Figure 1.2 is a derivative of Creative Commons “Medulla spinalis” by Polarlys 2006, used under CCBY2.5. (http://commons.wikimedia.org/wiki/File:Medulla_spinalis_-_Section_-_Latin.svg)

Licensed under:
http://creativecommons.org/licenses/by/2.5/deed.en,

2) “)” Missing on page 9, second line.

3) Reference not given for figure 1.3, page 11. Figure 1.3 is based on Mosher & Morrison, “Crossing the boundaries of sensory neurogenesis”. Nat Neurosci. 7(9):900-902. Sep 2004

4) Heading page 16 should be ““Dorsal Root Avulsion Model, rat (I and II)”.

5) “)” missing in heading 3.6, page 17

6) No acknowledgements listed in thesis, see below.
Acknowledgements:

• My supervisor, Dr Elena Kozlova
• Prof Håkan Aldskogius
• Niclas König. Colleague, teacher and for improving our surgical procedures
• Dr Svitlana Vasylovsk. For all the bc-culture work and expertise in this field
• Ninnie Abrahamsson. Invaluable technical expertise and contributions on paper I, cell culture
• Anongnad Ngarimjawat. For your kindness and help with immuno
• Michael Panchencko, ”anesthesiologist”. For all the help with the animals
• Jan Hoeber. For all our discussions and your knowledge which you generously share
• Dr Gustaf Christofferson, MCB. For the helping me with the vessel-experiments, confocal-expertise
• Dr Peter Shortland. The inventor of the dorsal root avulsion model.
• All co-authors and other contributors on papers I-III
• Prof Peter Bergsten. For making the MD/PhD-programme possible
• Dr Niklas Marklund, my co-supervisor.
• Friends and family
• My girlfriend, Erika, for putting up with me these two years
