

Errata list

This document lists errors and corresponding corrections in the doctoral thesis:

Psychological Treatment of Stress-Induced Exhaustion Disorder - Towards a Contextual Behavioral Approach

Jakob Clason van de Leur

Year: 2024

Uppsala University, Sweden

Bibliographic record available via:

<https://uu.diva-portal.org/smash/get/diva2:1851259/FULLTEXT01.pdf>

Corrections

References, spelling, and other corrections in the text:

| <i>Location</i> | <i>Error</i> | <i>Correction</i> |
|--|---|--|
| Page 46, paragraph 2, line 15 | Treating ED as a generic singular stimulus-response model of stress, mainly focusing on the physiological response, is likely to oversimplify its complexity and provide a narrow avenue for behavioral change. | Treating ED based on a generic singular stimulus-response model of stress, mainly focusing on the physiological response, is likely to oversimplify its complexity and provide a narrow avenue for behavioral change. |
| Page 68, paragraph 4, line 35 | External demands cannot by themselves result in exhaustion (or other forms of mental health, for that matter) since living, by definition, is dealing with persistent demands. | External demands cannot by themselves result in exhaustion (or other forms of mental ill -health, for that matter) since living, by definition, is dealing with persistent demands. |
| Page 71, paragraph 3, line 30 | Hayes et al., 2011 | Hayes et al., 2007 |
| Page 32, paragraph 3, line 27 Page 47, paragraph 3, line 24 Page 120, paragraph 11, line 40 Page 121, paragraph 7, line 20 Page 127, paragraph 10, lines 30 and 31 | Hoffman | Hofmann |
